

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

No such corporation, association or society organized under the laws of this State shall transfer its risks or assets or any part thereof to, or re-insure its risks or any part thereof in, any insurance corporation or association of any other State or country which is not, at the time of such transfer or re-insurance, authorized to do business in this State under the laws thereof.

RESOLUTIONS AND MEMORIALS.

HOUSE JOINT MEMORIAL NO. 1.

Whereas, We believe there is a general desire upon the part of the legal voters of the State of Montana that United States Senators should be elected by a direct vote of the people; and,

Whereas, The election of United Senators by the Legislative Assemblies, under the present provisions, retards and delays the business of their sessions very seriously;

Therefore, be it resolved by the House, the Senate concurring:

That we are in favor of such amendments to the Constitution and laws of the United States as will provide for the election of United States Senators by a direct vote of the people; and that we urge our Senators and Representatives in Congress to use their best endeavors to secure such amendments.

Further, That the Secretary of State be and he is hereby instructed to furnish a copy of this Memorial to each of our Senators and Representative in Congress.

APPROVED Feby. 13, 1893.

HOUSE JOINT MEMORIAL NO. 2.

To the House of Representatives Praying for the Passage of a Law for the Free Coinage of Silver.

To the Honorable, the House of Representatives of the United States:

Your memorialists, the Third Legislative Assembly of the State of Montana, believing that gold and silver are the constitutional money metals, and for nearly a century maintained by just and wise laws upon a ratio with each other, and believing that all legislation tending

to debase silver as an equal on such ratio with gold has been destructive of the prosperity of our Nation and of the whole people; and believing that the creditor class of our people have received too much consideration at the hands of Congress in demonetizing silver and destroying a large proportion of the currency of our country, thereby doubling the value of gold, and increasing its purchasing power without increasing its power to pay obligations already contracted; and believing that much of the stringency in the money market and many of the financial and business failures in these prosperous times of peace are due to this unwarranted contraction of the currency to a single standard or gold basis.

And believing, further, that much of the distress of our poorer classes is directly traceable to the demonetization of silver and a contraction of the currency of our country, while the population and commercial interests are expanding rapidly, and requiring an increase of circulating medium rather than a contraction.

And believing further that the business interests of our country demand a greater volume of gold and silver as a circulating medium or currency.

And having unbounded faith in the power and ability of the United States to maintain gold and silver upon the ratio hereafter suggested with each other regardless of the action of other Nations.

We humbly pray for the passage of Senate Bill 51 which passed the Senate July 1st, 1892, providing for the free coinage of silver at the ratio of sixteen of silver to one of gold, upon the same terms and conditions as gold is or may be coined.

And your memorialists, as in duty bound, will ever pray.

APPROVED Feby. 13, 1893.

HOUSE JOINT MEMORIAL TO CONGRESS, No. 3.

Praying for the Passage of Senate Bill 2373, for an Act to Amend Sections 2474 and 2475 of the Revised Statutes of the United States.

To the Honorable: The Senate of the United States:

Your Memorialists, The Third Legislative Assembly of the State of Montana, would most respectfully state the following facts:—

First. One of the largest and most promising mining districts the State of Montana lies very near to the northeastern boundary the Yellowstone National Park (but without the limits of the same). This district is rich in silver, lead and gold, and is known as t

“New World Mining District”, and the town which has sprung up at that point is called “Cooke” or “Cooke City.”

Second. Because of the large amount of lead in this district, railroad transportation is a vital necessity to the practical development, and must be had before the large number of property owners of the section can realize on their holdings, or its wealth be added to that of Montana and the world.

More than nine hundred bona fide mining claims are opened in this district, and some of them have had many thousands of dollars expended on their development with the most gratifying results, in so far as the amount of ore thereby exposed is concerned.

Third. In a mountainous country, such as that under consideration, it is obvious that when possible, a railroad should follow the depressions of the country made by the water drainage, and that any other location of a railroad will, in comparison, be extremely costly and difficult to construct.

Fourth. Cooke City is drained by Soda Butte Creek, which empties into the East Fork of the Yellowstone River, and which in turn empties into the Yellowstone River itself, and forms a practical route for a railroad from Cooke down along the streams mentioned to connect with the National Park Branch railroad at Cinnabar on the Yellowstone River. The distance from Cooke to Cinnabar along the route mentioned is about sixty-two miles. The entire portion asked to be segregated is far removed from any object of interest to tourists and is consequently never visited by them.

Fifth. There is now pending in the House of Representatives, Senate Bill 2373, which bill has been favorably reported by the House Committee on Public Lands and which has for one of its objects the segregation of that portion of the National Park and restoring to the public domain a strip of land along the northern boundary of the said Park, which, should it become a law, would afford relief to Cooke and to the “New World Mining District”, in the opportunities afforded thereby for railroad construction to said points.

THEREFORE, Your Memorialists pray that your Honorable Bodies will speedily cause the above referred to Senate Bill 2373, as reported by the House Committee on Public Lands, to be speedily enacted into a law and thereby remove an obstacle which prevents the advancement of an important section of our State.

And your memorialists will, as in duty bound, ever pray.

APPROVED Feby. 14, 1893.

HOUSE JOINT MEMORIAL NO. 4.

HELENA, MONTANA, Jan. 1893.

To the Honorable the Senate and House of Representatives, Washington, D. C.

We, your Memorialists, the Third Legislative Assembly of the State of Montana, respectfully represent:

That within the limits of this State there have been approximately but twenty million acres of land surveyed by the Government, and there are approximately seventy million acres of land unsurveyed. During recent years, Acts passed by your Honorable body, appropriating money for the survey of public lands have justly limited the expenditure of such appropriations to the survey of lands suitable for agriculture. In addition to the above referred to limitation, recent Acts of Congress making appropriations for surveys have provided that in expending this appropriation, preference shall be given in favor of surveying townships occupied in whole or in part by actual settlers. This last limitation is construed very rigidly by the Secretary of the Interior and by instructions to the various Surveyors General he directs that officer to, almost without exception require petitions from three or more bona fide agricultural residents upon any given township, before a contract can be drawn up for the survey of such township. With the last referred to limitation in the appropriation Acts, we are in hearty accord because it is just to our people that preference be given in surveying lands to the needs of actual settlers. What we do object to is the construction of the phraseology of the appropriation Act which prevents a reasonable sized area of unoccupied agricultural land being surveyed. The fact that a body of good agricultural land cannot under any circumstances be included in a surveying contract by itself, and surveyed in advance of settlement seriously retards the material development of this State, in the following manner: Almost the entire limits of our State lie within the so-called arid region where irrigation is necessary in order to make agricultural pursuits successful. To practice irrigation with any regard to the requirement of the science, it is necessary to take out from the streams supplying water for the same, large and consequently expensive ditches. In practice this can only be done by a community working in a co-operative way, that is to say: the entire community jointly constructs the main ditch, and each individual member of such community is entitled to his necessary water for irrigation purposes. We are endeavoring in various ways to bring in colonies from without our limits, who will settle upon our vacant and unappropriated lands. We find that we cannot succeed i

getting desirable colonies to come to this State, unless we can locate them upon surveyed lands. This, not only because prudent men will not construct the costly ditches above referred to upon land to which they can get no title, but also because proposed immigrants are adverse to even considering the question of settling and making improvements upon lands, the metes and bounds of which are not already specifically established by the Government. It is, comparatively speaking an easy matter to get very desirable colonies to settle upon our agricultural lands when the same are surveyed, but without such surveys being first made, it is practically impossible.

In view of the above facts, we respectfully pray:

(1) That you will favor us with a liberal and fair appropriation for surveys, to the end that the ratio between our surveyed and unsurveyed lands may be reduced; and

(2) That you will in the appropriation Act specifically provide that a part of the funds appropriated may be expended in the survey of agricultural lands in advance of settlement.

And thus your Memorialists will ever pray.

APPROVED Feby. 23, 1893.

HOUSE JOINT MEMORIAL NO. 5.

To the Honorable the Senate and House of Representatives of the United States, in Congress Assembled.

Be it Resolved: By your Memorialists, the Third Legislative Assembly of the State of Montana:

APPROVED Mch. 1, 1893.
